

Mr. Madness

Producer, DJ

Aleksander Sašo Justin aka Mr. Madness began his career at the age of 15 when he first heard the compilation Thunderdome. He immediately knew that this is the music he's been looking for his whole life, but he didn't know that it will become part of his life as well. He soon decided to try himself as a DJ, which was hard at that time since not many knew what hardcore music was in Slovenia.

But soon his luck changed and he got a chance to prove himself in a small club. It was a success, so he decided to organize his own shows which paid off a few years later. With a few good contacts he began to write history as the first Slovenian hardcore DJ who performed in Austria, Germany, Hungary and Netherlands. His music is full of energy and technical "know how".

You can hear anything from darkcore, industrial, aggressive mainstream, early and even terror. Today he's well respected DJ, who gains new fans on every step. That's why they call him the godfather of Hardcore scene in Slovenia. He produced quite a few songs, best known is his "This is madness", who was issued in compilation "Hardcore made in Germany". In 2010 he made 2 remixes of well known German dj Sam Punk, released his 1st solo album "Fuckin' Mfs" on swedish SEUA label, which became n.1 seller few weeks after release and joined to n.1 German label, Hardvolume records.

There you can hear 1st slovenian hardcore vinyl called "Break the silence" with very nice cooperation with German and French artists, but this is just the beginning...
