

DJ Speedloader DJ - Producer

DJ Speedloader shakes the dancefloor !

His mission:

to catapult party people where bodies exult and minds shine.

His style:

shared energy, rowdy complicity, furious harmony.

His technical skills: for your pleasure.

He promotes parties with his agency: Bass Nation (especially Megarave France events). He's also part of Party Uniq (media portal dedicated to music promotion). Speedloader believes in a festive, positive and explosive vision of hardcore. That's why conceiving, promoting and organising events allows him to contribute to the growth of the hard electronic music scene. Musical journalist and TV producer, he works so as to expose a good image of hardcore parties and hardcore crowd.

The electronic music's fire makes him burn since 1992, when he discovered such artists like LFO, 808 State, The Shamen. Then techno and hardcore brings the heat to its maximum. Formerly a bass player in a hardcore/thrash band, Speedloader starts mixing in 1997. Since then, residences in clubs and mixes in many parties in France and abroad allows him to improve his mixing skills.

The expansion of hard dance musics and culture in France feeds his passion and the 2010 decade will see Speedloader develop his vision in a new domain, after DJing, organisation, journalism and media production: music composing. Expect something vivid and intense !
